SYLVAC Multiplexer enhed D200S med 8 inputs (software og USB kabel er inkluderet)

SYL8041200

- Unit for connecting up to 8 SYLVAC capacitive probes and visualising the results on a PC (software included) or exporting the data.
- Housing made of aluminium profile and ABS plastic that can be placed vertically or horizontally
- 8 inputs for capacitive sensors P5, P10 and P25
- I/O terminal block with opto-coupled inputs/outputs
- Free software to view up to 24 channels simultaneously, create channel combinations, perform dynamic measurements or create sequences.
- Up to 3 units can be connected to the software, so that up to 24 probe inputs can be used.
- Possibility to connect a D110V unit for lifting the vacuum probes
- 2 connectors for optional pedal 904-4101
- USB and RS232 data outputs
- IP50 protection
