

## 300 mm Height Gauge V1 with steel base

### TRIM100110

V1 is ideal for those taking their first steps into precision measurement.

The V1 simplifies unidirectional measurements and tracking with remarkable ease. It offers a seamless transition for users accustomed to manual scribes, upgrading their toolkit without sacrificing simplicity and robustness.

This instrument is designed to last and reflects the Swiss ethos of durability and precision with features tailored for immediate use.

- Rugged and easily portable
- Clear, simple user interface
- Counterweight for operating comfort
- Fast and smooth carriage movement
- Designed and manufactured in Switzerland
- Available in 300 and 600 mm models
