

CAR FIRE BLANKET 6 X 8 M – for Petrol/Diesel/Electric and Hybrid Vehicles

35208200

This specially developed fire blanket is designed to extinguish and smother car fires, whether the vehicle is powered by petrol, diesel, electric, or hybrid engines. With its size of 6x8 meters, it can fully cover most passenger cars and SUVs, effectively smothering the fire.

The blanket is made from high-silica material, capable of withstanding temperatures up to 1100°C, making it suitable for combating the extreme heat generated by battery fires.

Product Information:

- Withstands temperatures up to 1100°C
- Melting point: 1700°C
- Made of 96% high-silica material
- 6x8 meters – suitable for passenger cars and SUVs
- Delivered in a practical wheeled transport case
- Suitable for extinguishing fires in petrol, diesel, electric, and hybrid vehicles
- Certification: DIN EN 13501-1

Note: The blanket is single-use only and must be disposed of after use.

Test report available upon request.
