

Circular permanent magnetic chuck Ø400x67 mm for grinding and turning with max. holding force 140 N/cm² and pole pitch 5+8 mm

30313400

Clamping for grinding and turning. Features: Pole pitch 5+8 (brass/steel). Highest clamping force up to 140N/cm². Concentric grooves simplify the centering of the workpiece. Variable magnetic clamping force. Symmetrical design allows high turning speeds. Centre drilling of location hole is available on request. High precision and low remaining magnetism.
