CURV-O-MARK Dual Angle Flange Level (J1891)

35170350

A versatile tool that can be used as a dial degree utility level or, with attachments, for two-holing flange alignment. The unit is made of cast aluminum with a protective housing containing an adjustable DSL. It is also fitted with a threaded, self-aligning conical spacer and conical nut and bolt units for fastening the Level to a pipe flange. One of the nut and bolt units is stationary, while the other slides up to 5-1/2 in. along a slot in the level to accommodate various flange bolt hole spacings from 2 to 5-1/2 inches. The body of the tool is 1/2-in. thick with a machined surface. The level bubble is protected from weld splatter and breakage with a built-in housing around the DSL.

- Made of lightweight cast aluminum.
- Non-magnetic and can be used on PVC pipe
- Can be used as a dial degree utility level or with attachments for two-hole flange alignment
- Contains and adjustable DSL in protective housing to protect from weld spatter and breakage
- Fitted with self-aligning conical spacer and conical nut and bolt units for fastening the level to a pipe flange
- Designed with one stationary nut and one that slides up to 139 mm (5.5 inches).
