Digital Laser Tachometer with data logging and non-contact measurement

15117440

Digital Laser Tachometer for fast and accurate measurement of rotational speed. The laser can perform non-contact measurement by using the infrared beam function. The unit's built-in memory recalls the most recent minimum and maximum values. The large LCD display makes the tachometer easy to use and read. The tachometer includes, reflective tape and 3 pcs. of 1,5V AA batteries included. Comes with a foam-fitted, hard-plastic storage box.
