

Digital thermometer K-type (-50°C-750°C)

15120140

A portable digital thermometer with stable performance, high precision and low power consumption. An ideal instrument for most users. Functions: Data Hold and conversion of Celsius and Fahrenheit.

Important information:

- If the temperature in the working environment suddenly changes, the instrument must be placed in the environment for min. 30 minutes before measurement can be resumed. The measurement can only be resumed when the temperature inside the meter matches the temperature outside.
- The electromagnetic field from electronic welding and inductive heating must be minimized.
- Do not place the instrument near or directly on a hot object.
- The meter must be kept clean so that dust does not enter the lens.
- Remember to turn the connector on the K-type correctly (plus to plus and minus to minus)

Battery: 2xAAA included

Supplied complete including:

- Item number: 15121425 - Air sensor (250°C)
- User Manual

Product details	
Item no.	15120140
EAN	5708004054726
Customs tariff	9030890000
Sales Quantity	1

Product specifications	
Barcode	5708004054726
Battery	2xAAA
Measuring range	-50°C-750°C
Gross weight	0.150 kg
Net weight	0.120 kg
