

NOGA Roto-Drive deburrer NG1700 ext. Ø4-18 mm

61130215

NOGA NG1700 rotodrive – Chamfers the O.D on bars and tubes

The NOGA NG1700 deburring tool makes it easier than ever to chamfer the O.D. on bars and tubes. The tool is designed with a clever single flute countersink. The countersink head is rotatably mounted in the handle which provides a smoother and quicker cut. The countersink is made in H.S.S. and has a range on 5-18 mm.

The handle is made of plastic, with a rubber coating and designed for maximum comfort in your hand. Spare blades can be held inside the handle. The blades can easily be replaced, spare blades can be stored inside the handle. The handle fits to all the “s” blades, so it is possible to adjust the deburr, so it fits the exact need.

- Rotodrive RD – for quick and smooth chamfering
- Quick and easy way to get the round items neat
- NG1000 handle, fits all S klingers (3.2 mm)
- Spare blades can be held inside the handle.
- Supplied with a countersink head 5-18 mm by HSS.
