

NOGA sheet metal deburrer NG3200 V-blade and tele. shank

61135135

NOGA NG3200 for deburring straight edges

Deburring tool with a V blade, which can deburr both edges on sheet metal at the same time. The tool is supplied with a telescopic holder, that fits to all the blades in NOGAs "L" blade series. The blades are easily mounted in a 3 mm square hole and tightened with a 4 mm setscrew. The telescope works in a range of 30-115 mm, and gives you the possibility to reach difficult places.

The handle is made of plastic, with a rubber coating and designed for maximum comfort in your hand. Spare blades can be held inside the handle. The blade holders and blades can easily be replaced, so it is possible to adjust the deburr, so it fits the exact need.

- NG3000 handle, fits all bladeholders and blades
- Spare blades can be held inside the handle
- Teleskopic range from 30-115 mm
- L3 blades with a range from 1-8 mm
