

KAPRO Prolaser Vector 873

Cross beam laser (RED vertical- and horizontal laser)

10468110

This cross laser has an indoor working range of 30 m and outdoor range of 50 m with detector. Prolaser 873 is therefore an ideal tool for both indoor and outdoor projects.

The laser is encased in a shockproof rubber housing for extra protection. KAPRO has also equipped the laser with a pair of patented sets of 15° adjustable folding legs, which make it possible to place it on any surface – without having to use a tripod.

Delivered incl. laser target, universal wall mount, tripod adaptor and bag.

Battery: 3xAA included.

Perfect for the following work areas:

- Ceiling and plaster wall installation
- Door and window installation
- Measurement of sockets and plumbing work
- Hanging cabinet assembly and terrace construction
- Measure slopes and roofs
- 3 laser beams: 1 horizontal and 2 vertical with a 90° intersection
- Indoor laser range: 30m
- Outdoor laser range: 50m with detector
- Accuracy: ±0.2mm/m
