

Magnifying Lamp "COSMO" with Ø178 mm lens and 3D+5D Diopter (1,75X+2,25X) and 16W LED light source

15406445

One of our latest magnifying lamps for professional use. Comes with Ø178 mm 3D lens pre-installed (1.75X magnification) and an extra 5D lens (2.25X magnification) which can be replaced according to work task or need. Supplied in addition with robust table clamp and 1.5 M cable with EU Type F Schuko connector.

The flexible arm of 820 mm with 3 links provides a large working radius and has a strong holding force. The lampshade has a nice, thin design and extra large lens diameter which gives the user an optimal overview. The smart "Quick-Change" system allows the user to quickly switch between 3D and 5D Diopter.

Application:

A magnifying glass is widely used and is, among other things, ideal for workshops, laboratories, electronics production, model making, beauty salons, dentists, etc. Can also be used for reading for the visually impaired.

- 3D + 5D diopter in one complete package (3D lens is pre-installed)
- 80 pcs. Super Bright SMD LEDs
- Swivel range: ±80°
- LED light color: Classic white
- Color temperature: 6500 Kelvin

Product specifications

Barcode 5708004074892

Correlated color temp. (CCT) 6500K

Product type Magnifying lamp

Magnification (diopter) 3D + 5D (1.75X + 2.25X)

Power consumption 16W

External diameter Ø 272 mm

Lumen output 1600

Model COSMO

Color rendering (CRI) 80

Power supply AC 230V

Lens size Ø178 mm

LED diodes 80 SMD (Super Bright)

Gross weight 5.320 kg
