

Postal Scale 75 kg x 50g (d = 50g) with 305x318 mm platform and ABS indicator

18560130

This is our new, reliable parcel scale designed for busy workstations and packing rooms, where precision and efficient handling go hand in hand. The scale has a capacity of 75 kg and a division of 1500d, and is equipped with an overload protection of a whopping 10X!

The heavy-duty weighing plate measures 305×318 mm, which is the perfect size to weigh larger parcels stably without requiring unnecessary space in the work area.

The display is equipped with 25 mm clear digits with white LED backlighting, which ensures easy reading in all lighting conditions, even in slightly darker packing environments.

Operation is via four robust buttons. The power supply is via 4 pcs. 1.5 V AA batteries (not included), but can also be connected to a regular 230V via the included power plug. On battery and without constant LED light activation, the scale can run up to 500 hours continuously.

The scale is also equipped with a standard RS-232 output on the back of the display, so you can easily integrate the scale with printers, labeling systems or logistics software.

- Double capacity: 75 kg capacity with 1500d graduation
- Highly visible display: 25 mm digits with white LED
