

Prof. All-Forged Steel Vise with 125 mm jaw width and built-in pipe jaws for installation work

40031325

Prof. Steel-forged vise with solid cast iron pipe jaws and large anvil is the ideal tool for blacksmiths, metal workshops, and other professionals requiring reliable and precise fastening and processing of materials.

- Available from 100 mm to 180 mm jaw width
- Swivel base can be purchased separately
- Lifetime warranty

Features and characteristics:

1. Robust construction: The vise is made of high-quality steel and built to withstand tough working conditions and intensive use. Its solid construction ensures long-lasting reliability and durability.

2. Solid cast iron pipe jaws: The vise's solid cast iron pipe jaws provide optimal grip and support for round objects such as pipes and pipe stubs. This ensures stable and secure fastening during processing.

3. Large anvil: The built-in large anvil offers additional functionality and the ability to perform hammer work directly on the vise. This makes it a versatile tool for metalworking and forging.

4. Complies with: (DIN) PA 80-3.5.2/03.07

Product details

Item no. 40031325

EAN

Customs tariff 8205700000

Sales Quantity 1
