

SHINE SPOTLITE Compact DIN 5-13 auto darkening welding mask with DIN 3 light state and grinding mode

32301075

SHINE SPOTLITE is a compact auto darkening welding mask designed for tasks where a conventional welding helmet is too bulky, typically maintenance, installation and work in confined positions. With a DIN 3 light state and a 1/1/1/2 optical rating, it is built to give a clearer view in low ambient light for more accurate weld control.

The filter features 2 arc sensors and variable shade ranges DIN 5-9 and DIN 9-13. External controls allow quick adjustment of shade, sensitivity and delay without removing the mask, and a grinding mode supports switching between welding and finishing work. Suitable for use with prescription glasses.

Key features

- Compact solution for confined workspaces
- 1/1/1/2 optical rating and DIN 3 light state
- 2 sensors, DIN 5-9 and DIN 9-13 shade ranges
- External adjustment of shade, sensitivity and delay
- Grinding mode and low-battery indicator
- Can be used with glasses

Technical specifications

Product details	
Item no.	32301075
EAN	
Customs tariff	6506101000
Sales Quantity	1
Product specifications	
Barcode	8721111700086
Varemærke	SHINE
Antal censorer	2
View size	100x40 mm
Power supply	1 x CR2450
Inside protection glass	143x61,1x1 mm (1301007)
Control panel	External
Light state	DIN 3
Dark Variable State	DIN 5-9/9-13
Optical Class	1/1/1/2
SHINE Article no.	1301005
Switching time (Light to dark)	0,04 ms
Grinding function	Yes (with LED indicator)
True Color ADF	Yes
Outside protection glass	113,5x42,8x1 mm (1301006)
