SYLVAC Software Sylcom LITE

SYL9817128

SYLCOM LITE allows connecting all the Sylvac instruments either by USB cable or by Bluetooth®.

This universal software can be used to display values in different modes, to upload part drawing in background, to show the tolerances status, to define measuring sequences and to export data to Excel or to other third party software.

You can connect 1 instrument and 1 pedal on this free version. If you want to connect more instruments or get more possibilities, Sylcom Standard or Advanced licenses can be purchased.

For Win7 (32/64bits), Win10 (32/64bits).

- SYLCOM LITE (1 connection)
- Transmission of data with USB-cable or Bluetooth®
- Excel or other measuring applications
- Additional licenses available
