

Thermometer Digital -50°-750°C. Resolution 1°C

15122750

Designed for type k sensors. A light ergonomic design means that operation can be easily done with one hand, and the large display makes reading the values extremely easy. The instrument has a hold function so that the last recorded measurement is retained in the display.

Important information:

- If the temperature in the working environment suddenly changes, the instrument must be placed in the environment for min. 30 minutes before measurement can be resumed. The measurement can only be resumed when the temperature inside the meter matches the temperature outside.
- The electromagnetic field from electronic welding and inductive heating must be minimized.
- Do not place the instrument near or directly on a hot object.
- Remember to turn the connector on the K-type correctly (plus to plus and minus to minus)

Battery: 9V included

Supplied complete including:

- Item number: 15121425 - Air sensor (250°C)
- User Manual

Product details

Item no.	15122750
EAN	5708004006909
Customs tariff	9025808090
Sales Quantity	1

Product specifications

Barcode	5708004006909
Battery	2xAAA
Measuring range	-50°-750° C
Gross weight	0.170 kg
Net weight	0.140 kg
