

TSCHORN Toolsetter 100 mm (+/- 0,01 mm) with Dial indicator

50328185

For precise positioning of workpiece surfaces or tool lengths in the Z direction on milling or turning machines. The device is placed on the workpiece. Then, with a standing tool, carefully move the device up until both indicators of the clock show "0". Now the reference dimension of 100 mm for the workpiece has been reached. Thanks to a safety spring path, the zero adjusting device also makes a pass of max. 2 mm nothing out.

Delivered with zero adjustment device in the wooden case with serial number and certificate from manufacturer
