

Z Axial Zero Setter OPTICAL with Ø19 mm tester and 60 mm height (base = Ø32 mm)

50325330

For accurate positioning of workpiece surfaces or tool lengths in the Z direction on milling or turning machines.

The device is placed on the subject. Then you carefully drive the tool setter with the spindle.

As soon as the LED lights up, the reference dimension 50 mm has been reached. A safety spring deflection of approx. 2 mm for driving over 50 mm.

- Height: 60 mm
- Diameter: Ø32 mm
- Measuring surface: Ø19 mm
- Tolerance: 60.00 mm +/- 0.01 mm

With built-in magnets, which means that the toolsetter can also be mounted sideways.

Comes with:

- Series no.
- Test certificate
- Wooden box
